SUMMARY

Dr. Jennifer Cha is the President of the Dental Implant Institute of Las Vegas and owner of Dr Jennifer Cha DDS APC dental practice in California. She is a Fellow and Diplomate of the International Board of Oral Implantologists, and American Dental Implant Association, one of only two dentists in Las Vegas to be awarded these two esteemed honors.

A resident of Las Vegas for over 30 years, Dr. Cha graduated from UNLV with a B.S. in Biology and then received her D.M.D. degree from Washington University School of Dentistry. Dr. Cha has extensive postgraduate experience, having completed both a Masters Degree in Oral Biology and a Certificate in Periodontics from Northwestern University Dental School. Dr. Cha utilizes her expertise in dental implants, both surgical and restorative, and specifically in full mouth reconstruction of complicated dental implant cases, to offer the most advanced care to her patients through a revolutionary procedure combining 5 surgeries into one surgical visit that is less invasive, less painful, with a faster healing time and the highest rate of success.

Dr. Cha is also an accomplished cosmetic periodontal plastic surgeon, and was voted by her peers as a top periodontist and best female dentist in Las Vegas, according to the Las Vegas Life, The 215 South, and The Summerlin magazines.

In addition to her busy practice, Dr. Cha is active in several charitable organizations in Las Vegas. She is a Gold Level sponsor for the American Heart Association, and also contributes generously to the Diabetes Foundation and the AIDS Foundation. She is on the advisory board of Clark High School, from where she graduated, for AMSAT, a math and science program for advanced students. Dr. Cha also is a sponsor of the 4 Christ Mission, which through her patronage, has been able to build and support several orphanages in Mexico.
